

MODEL EVALUATION REPORT: MULTIPLE LINEAR REGRESSION

1. Metadata Summary

This diagnostic report evaluates the performance of the **Multiple Linear Regression** algorithm trained on the dataset **iris_flower.csv**, target variable '**SepalLength**'.

Parameter	Value
Algorithm ID	multiple_linear_regression
Task Type	Regression
Total Target Classes	N/A (Continuous)
Features Count	6
Training Time (seconds)	0.0341 seconds
Evaluation Timestamp	2026-06-01 16:47:54

2. Training Parameters

Hyperparameter Key	Configured Value
missing_strategy	mean
scaling_strategy	standard
test_size	0.2

3. Evaluation Results

Metric Name	Performance Score
MAE	0.22766
MSE	0.09211
RMSE	0.30350
R2	0.86655
ADJUSTED R2	0.83174

4. Diagnostic Visualizations

Actual vs. Predicted Scatter Fit
